Summary

Aspiring Software Engineer with hands-on experience in full-stack development, backend API design, and scalable system workflows gained through two internships and multiple production-grade projects. Strong foundation in Data Structures and Algorithms with 900+ problems solved across platforms. Proven ability to improve application performance, enhance data accuracy, and collaborate in agile teams. Actively seeking SDE Intern or entry-level roles to contribute to impactful engineering teams.

Technical Skills

Languages: C++, Python, JavaScript (ES6+), TypeScript
Frontend: Next.js, React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, Django, REST APIs, Authentication, MongoDB, PostgreSQL, MySQL, NoSQL
Tools: Git, GitHub, Docker, Postman, Swagger, VS Code, GCP, CI/CD
Coursework: Data Structures & Algorithms, Object Oriented Programming, Database Management System, Operating System, Distributed Systems, AI/ML

Internship Experience

Open Healthcare Network **May 2025 – Oct 2025**
Junior Full Stack Intern *Remote*

- Resolved 10+ critical UI issues in the Care app, increasing data entry accuracy and improving user workflow consistency.
- Refactored and migrated patient data models across services, reducing API inconsistencies and simplifying future feature development.
- Implemented dynamic code-splitting and lazy loading, reducing initial load time by approximately 25%.
- Collaborated with developers through structured Git workflows, code reviews, and sprint-based task coordination.

TaskMate AI **Jan 2025 – Mar 2025**
Full Stack Developer Intern *Jaipur, India*

- Contributed to an AI-driven task management platform by testing features, reviewing code, and ensuring smooth integration with tools such as google,slack and Gmail.
- Improved API stability by assisting in the redesign of backend endpoints using Node.js and Express.js.
- Identified bugs and participated in pull request reviews, helping reduce reported issues during sprint cycles by 15%.
- Managed tasks via Jira and participated in daily stand-ups, sprint planning, and team discussions to improve delivery efficiency.

Projects

Resume Craft | *Next.js, Gemini AI, Clerk, Convex, Tailwind CSS* **Live**

- Developed an AI-assisted resume builder offering automated content suggestions, helping users create resumes more efficiently.
- Designed a guided, step-by-step interface with real-time preview to reduce user confusion and improve completion rates.
- Implemented multi-resume versioning, enabling users to manage multiple drafts with a streamlined workflow.

CarePulse | *Next.js, ShadCN, TypeScript, Appwrite, Tailwind CSS* **Live**

- Built a full-stack healthcare management system with modules for authentication, appointments, and patient onboarding.
- Integrated SMS reminders and simplified registration flows, improving user onboarding efficiency.
- Optimized Appwrite queries and improved backend responsiveness, reducing API latency by an estimated 15–20%.

Education

Jaipur Engineering College and Research Center **Nov 2022 – May 2026**
B.Tech in Computer Science and Engineering • CGPA: 7.51 *Jaipur, Rajasthan*

Achievements / Certifications

- Merged **10+ PRs** during **Hacktoberfest 2024/2025**, demonstrating strong debugging and clean code practices.
- Secured a **global rank of 6569** in **TCS CodeVita Season 12**.
- Participated in **Google Summer of Code 2024**, completing proposal submission and the community bonding phase.
- Solved **900+ DSA problems** across LeetCode, Codeforces, GFG, and CodeStudio; achieved **1600+ LeetCode rating** and **1000 rating on Codeforces**.
